**Where:** EPA R2 NYC-27th Floor Room 27B

Hi

Hope you are all having a great end to the summer.

Based upon feedback on potential meeting dates October 29<sup>th</sup> works out best. A draft agenda is attached; if you would like to add agenda topics or modify the existing topics please let Jim and me know.

I have also attached a final version of the meeting notes from the June 22; some edits were made to the draft to reflect changes requested by MWD, Navy and NG. The changes were mostly minor things; the exception being Navy's update wrt capturing the 500 pbb concentration of contaminants as follows: "[Note: The Navy has since confirmed it will attempt to capture the 500 ppb concentration of contaminants but cannot guarantee complete capture of the 500 ppb due to the lack of open space to site the extraction well(s) in an optimum location.]"

Regards,

Doug
